

Are you looking for support to pay your NDIS providers?

Plan Management - Easy Read

Plan management is a way to manage your NDIS funding and is an NDIS support.

A **Plan Manager** like Lighthouse Disability can help you look after your plan.

We do things like:

- pay invoices to your support providers
- do the paperwork and
- keep records about your NDIS money and how much you have spent

You can also **choose the providers you want**. Your service providers can be **registered** with the NDIS or **not**.

You **do not have to pay** for Plan Management. Everyone who asks for Plan Management from NDIS **gets it included in their plan**.

You can ask for Plan Management at **any time during your plan**.

For more information call **8256 9800** or visit our website lighthouse disability.org.au
