What is Supported Independent Living?

Supported Independent Living (or SIL) is an NDIS support where you live individually in a house or with other people in a share house. Depending on your support needs, we have support workers available 24 hours, 7 days a week.

We will support you with daily tasks like cooking, personal care, household chores, going to appointments and taking medication. As a provider of community participation, we can also support you to engage activities, events, groups, and services within your local community.
